AVAILABLE
FOR RENTAL

HIGH TECH GRINDING

CIMAR

CIMAR XINGYI High Speed Polisher is design to meet the requirement for high standard polishing of cement, marble and terazzo. The machine is equipped with a powerful electric motor, inverter and high quality mechanical parts. The polishing machines and auxiliary equipment perform superbly in the refurbishment of all kinds of stone flooring. HTG 700HP comes with self leveling system.

HTG HP27

HTG HP27 Manual adjust level system high speed polisher. Cost effective and able to achieve high standard of polishing with its superb design.

HTG 700HP

HTG 700HP Self adjust level system high speed polisher. Increase efficiency by reducing setup time and able to achieve high standard of polishing with its superb design.

HTG HP27

Weight: 185kg
Working Width: 700mm
Disc Dia: 700mm
Number of Disc: 1qty
Rotation Speed At Disc:
350-2000rpm
Voltage: 415v
Rated Current: 19.02A
Grinder Motor Power:
13Hp/3Phase 9.5kW/3Phase
Inverter Power:
15Hp/3Phase 11kW/3Phase
Water Tank: N.A

HTG 700-HP

Weight: 216kg
Working Width: 700mm
Disc Dia: 700mm
Number of Disc: 1qty
Rotation Speed At Disc:
350-2000rpm
Voltage: 415v
Rated Current: 19.02A
Grinder Motor Power:
13Hp/3Phase 9.5kW/3Phase
Inverter Power:
15Hp/3Phase 11kW/3Phase
Water Tank: N.A
