H: Height of teeth in mm
L: Gap between teeth in mm
S: Width of teeth in mm

All serrations shown in actual size(1:1)

The mentioned measurements depend on the manufacturing of the material and can differ insignificantly.

Adhesive spreader (777)

fitted with clamps to hold the exchangeable toothed blades. The adhesive spreader is made of width of blade 280mm ~ 11 inch.

TOOTHED RUBBER TYPE

59E

TOOTHED RUBBER SQUEEGEE SUPPORT

of cast aluminium, width 58cm-22 7/8 inch, without rubber blade, complete with wingscrews and clamping ferrule.

Toothed Rubber Blade

8 mm ~ 5/16 inch thick Neopren blade, lightgrey, 58mm ~ 22 7/8 inch wide.
Resistant against acids and lyes. Fits toothed rubber squeegee support (59).

59 E 00

RUBBER BLADE

as toothed rubber blades (59E) but smooth

88 E 00

RUBBER SQUEEGEE SUPPORT LARGE (88)

made of cast aluminium, 80cm ~ 31 1/2 inch wide, without rubber blade, complete with wingscrews and clamping ferrule.

RUBBER TYPE

80cm ~ 31 1/2 inch wide, fits to support (88) lightgrey Neopren blade, 8 mm ~ 5/16 inch thick, smooth, without teeth.
