

SYNTESI 140HDPE

SYNTESI 140

SYNTESI 350

SYNTESI 350

STANDARD EQUIPMENT

- single-phase 230v/50Hz motor(all motors)-IP55 switch and no-volt coil.
- version with Robin petrol engine(Syntesi 1920,250,300,350)-unleaded petrol Reed.
- transmission system with high resistance belt and steel gears in oil bath
- movement towbar
- Poly drum version,available on Syntesi 140.

APPLICATIONS

- designed and built to solve the typical problem of traditional concrete mixers. The transmission system inserted in the arm and the convenient worm screw tilting system make it noiseless and lightweight and at the same time sturdy and reliable.
