

- used for trenching, excavation, ice removal and snow shoveling in municipal projects.
- used to move off the excess adhesive, pitch etc, during the house decoration process.
- used for crushing , grooving, drilling and perforating low-grade concrete, brick walls, etc.in municipal projects.
- used to shovel old silt, floor tiles as well as shoveling and cutting operations of walls.
- used for excavation and trenching of various lands in gardening and agricultural operations and can also used to extract and plant landscape, trees as well as grow **some crops**.

Model	Q6D	Q8T
Length	820mm	680mm
Impact Frequency	≥30Hz	≥26Hz
Air Consumption	≤280L/min	≤480L/min
Piston Stroke	45mm	55mm
Shank Size	S18x60mm	S18x60mm
Noise Level	≤105dB(A)	≤110dB(A)
Weight	5.2kg	8kg
Impact Energy	5J	15J
Piston Diameter	33mm	48mm
Hose Internal Diameter	Φ9mm	
Operation Pressure	0.63MPa	

1# Square Spade ♦♦ used for trenching, excavation, ice removal and snow shoveling in municipal projects.

2# Scraper ♦♦ used to move off the excess adhesive and pitch. During the house decoration process.

3# Flat Wide Chisel ♦♦ used to clean the casting as well as shoveling and cutting on the surface of metal materials.

4# Flat Narrow Chisel ♦♦ used for crushing, grooving, drilling and perforating low-grade concrete, brick walls in municipal projects.

5# Moil Point ♦♦ used for crushing, grooving, drilling and perforating low-grade concrete, brick walls in municipal projects.

6# Flat Chisel ♦♦ used for crushing, grooving, drilling and perforating low-grade concrete, brick walls in municipal projects.

7# Angle Shank With Tip ♦♦ used to shovel old tiles, floor tiles as well as shoveling and cutting operations of walls.

8# Digger Chisel ♦♦ used for excavation and trenching of various lands in gardening and agricultural operations and also can be used to extract and plant landscape trees as well as grow some crops.
